- Question 2: Covered accounting for associates and joint ventures, emphasizing the equity method, and related disclosures.
- Question 3: Addressed specialized topics such as foreign currency translation, accounting for leases, and recent IFRS updates.

This structure aimed to test candidates' ability to integrate multiple concepts within a single scenario and demonstrate a holistic understanding of advanced accounting issues.

- Calculating goodwill or capital reserve on acquisition
- Eliminating intra-group balances and transactions
- Adjusting for unrealized profits on inventory or fixed assets
- Accounting for non-controlling interests

c) Intra-Group Transactions

Questions involved elimination entries for intra-group sales, dividends, and unrealized profits, emphasizing the importance of correct consolidation adjustments to avoid double counting.

Analytical Insights:

Candidates who could systematically approach consolidation problems?by first identifying acquisition date adjustments, then eliminating intra-group items?performed better. Common errors involved neglecting to adjust for intra-group profits or incorrectly calculating non-controlling interests.

## 2. Accounting for Associates and Joint Ventures

a) Equity Method Application

Candidates needed to demonstrate understanding of the equity method, including:

- Initial recognition of associate investments
- Share of profit or loss
- Dividends received
- Adjustments for fair value differences and impairment

b) Disclosures and Reporting

Questions covered the differences between joint ventures and joint operations, with emphasis on proportionate consolidation versus equity method.

Analytical Insights:

Candidates who could distinguish between the types of joint arrangements and accurately apply the equity method were able to navigate these questions confidently. Common pitfalls included miscalculating share of profit or neglecting to adjust for post-acquisition changes.

## 3. Foreign Currency Transactions and IFRS Updates

a) Foreign Currency Translation

Candidates were required to translate foreign currency financial statements applying IAS 21, considering:

- Functional currency determination
- Exchange rate fluctuations
- Recognition of exchange differences in profit or loss or other comprehensive income

c) Practical Application of IFRS Standards

Candidates had to interpret complex scenarios, such as transactions involving multiple currencies, or accounting for newly issued standards.
